

Liz Lawrence, RDMS, RDCS, RVT – I am pleased to serve as Vice-President during the next two years with the other amazing sonographers serving as board members. As the more experienced board member, I am looking forward to guiding the next generation of Michigan Sonographer Society leaders who will take our society forward for the benefit of future sonographers in our State and surrounding areas. I currently work at Choicene Medical Staffing company. I enjoy working in the lab at Baker College and having new sonographers work with me to learn venous insufficiency techniques.
